

WORKSHOP PROGRAMME

The Paper Birds

DEVISING WORKSHOP

An engaging and practical session that explores the Key Ingredients of The Paper Birds' work; Verbatim, Movement, Character & Narrative, Exposing the Method and Motif. Exercises designed to work with any stimulus; we can use your set theme or topic to allow students to begin developing material for their piece, or we can use exam board set stimuli to demonstrate our unique and practical approach. We tailor each session accordingly for your group, pitched for KS5 students working 'in the style' of The Paper Birds, or more focused on getting a Year 9 or KS4 group to get up and try more inventive approaches to devising.

VERBATIM WORKSHOP

An in-depth session exploring the various ways The Paper Birds incorporate verbatim text, interviews and transcripts into performance. An engaging session that encourages participants to get up on their feet, turning research into performance, and ultimately creating more layered and thought-provoking original devised work.

ONLINE WORKSHOP

Whether you are on the other side of the world, or on the other side of town, sometimes its not always possible to have visitors in school. Our 2-hr session delivered via videocall is perfectly designed to allow students to experience our key devising approaches remotely.

"I would highly recommend - it was really fast paced, well planned and inspiring. My students were all really buzzing and clearly had so much fun."
Withington Girls' School

Online Workshop: £200 + VAT

2 Hour Workshop: £290 + VAT

Full Day Workshop: £500 + VAT
